Mr. Douglas R. Sherwood Hanford Project Manager U.S. Environmental Protection Agency 712 Swift Boulevard, Suite 5 Richland, Washington 99352

EDMC

Dear Mr. Sherwood:

TRANSMITTAL OF THE 200-PW-1 OPERABLE UNIT DISPERSED CARBON TETRACHLORIDE VADOSE ZONE PLUME SAMPLING AND ANALYSIS PLAN-STEP I, DOE/RL-2001-67, DRAFT A

Attached is the subject document for your review. The 200-PW-1 dispersed carbon tetrachloride vadose zone plume investigation is divided into two steps: shallow/intermediate (step I) and intermediate/deep (step II) investigations. This plan describes the shallow/intermediate investigation, scheduled to be performed in Fiscal Year 2002, consistent with the 200-PW-1 remedial investigation/feasibility study work plan (DOE/RL-2001-01, Draft A) currently under review by the U.S. Environmental Protection Agency. The sampling and analysis plan also includes the waste control plan for all of the 200-PW-1 investigations as Appendix A.

If you have any questions, please contact me on (509) 373-9631.

Sincerely,

Arlene C. Tortoso, WMD

Project Manager
